Calming Choices

My choice

CALMING CHOICES CHART

Help your students make good choices when feeling stressed, angry, or overwhelmed. Laminated set includes a choice chart and several 2" x 2" calming choice cards. Additional blank cards allow you to customize choices. When students need to calm down, present them with the chart. Or use it to introduce and practice new calming strategies. This visual support helps students exercise their independence, decision making, and self-soothing skills. Calming Choices include: Weighted Blanket, Weighted Vest, Take a Break, Get a Drink, Deep Breaths, Count to 10, Quiet Area, Stress Ball, Ask for Help, Talk to My Teacher, Stretch My Body, Wall Push Ups, Listen to Music, Draw a Picture, Read, Jump, Take a Walk, and Rest. Size 9" x 12"

- #100222x Chart **\$19.99**
- #100228 3' x 3" Flip Card Set **\$15.99**

FIRST THEN / FIRST THEN NEXT

Introduce your students to the concept of time, order, and multiple steps. Helps students with transitions by understanding what happens after a certain task or activity is done. This helps reduce anxiety and the stress of uncertainty. Teaches students where and how to look for information on what he or she will be doing right now and what is coming next. Includes 3 charts. Features loop tabs that allow for universal use for many different tasks. Boards are fully laminated. Set includes 3 boards.

- #100218 **FIRST THEN, 7" x 3"** \$4.99
- #100210 **FIRST THEN NEXT, 8.5" x 3.5"** \$5.99

VISUAL CUE CARDS

This handy set of 4 laminated cards provide a quick visual reminder to your students. Size: 3" x 3"

- #100217 **STOP** \$2.99
- #100224 **WAIT** \$2.99
- #100225 **I NEED HELP** \$2.99
- #100226 **I NEED A BREAK** \$2.99
- #100227 **SET OF 4** \$2.99

PICTURE CARD SETS

Use our laminated Picture Communication Cards to help students with communication, independence, transitions, and increasing understanding. These cards include the most common pictures you will need to help your students communicate. The velcro backing allows you to easily attach them to your schedules or sentence strips. Cards are laminated, making them durable and easy to clean. Each picture measures 1.75" x 1.75."

- #100206 **EMOTIONS** \$5.99
- #100203 **SCHOOL** \$11.99

Helping Students Understand Daily Routines With Picture Symbols

The Amazing Power Of A Picture Schedule!

We all use a schedule! Everyday we follow a schedule we have in our memory or use a written schedule on our calendar or phone. Think about what happens when there is a disruption in your routine: your car breaks down, you get a call that someone needs you now, or you lock your door and realize your keys are inside. Now consider the stress you felt on your first day at a new job. So many things are new and unpredictable! These changes cause stress as you sort out what is happening, and what you have to do next.

Whether a person has a disability or not, we all experience stress when we are unsure about key aspects in our day: where we will be, what we do, how long an activity will last, and/or what is coming next. As we understand a situation our stress levels go down. In a calm state it is easier to think about and imagine possible solutions to disruptions in our day.

Now, think about your students who struggle to understand abstract concepts like a daily routine. Common disruptions are stressful and are not so easily understood! This is where visual picture representations can help! A picture schedule provides a tangible representation of a student's abstract daily routine. Now a sequence of events that may have appeared to come at your students at random can be easily expected and anticipated.

How to Start

For a person beginning to use a picture schedule, we often start with a simple "FIRST-THEN" display board. A picture symbol such as a "Wash Up" is placed in the "FIRST" area and then a second picture such as "T.V." in the "THEN" spot.

Point to the pictures as you display them to your student. For example, you may say: "FIRST we are going to wash up, THEN we can watch TV." This helps convey the idea that they will watch T.V., but washing up happens first. Anxiety is reduced as they realize they will get to their desired activity (watching T.V.) after they finish the activity they may not have been interested in performing (washing up).

A picture schedule must be taught, and it's effectiveness should increase over time. It is a good idea to begin with pleasant activities so that the individual will want to participate. For example, you can start with two desired items such as FIRST: "Fruit", THEN: "Game". As the idea of following a picture schedule becomes better understood, 'less desired' daily activities can be added to the first location.

Once a student understands the two-picture symbol display you can add more pictures. Eventually you can display a series of schedule pictures working in more activities that may not be highly desired. An example of a longer schedule might be: "Wash Up", "Dinner", "Dish Washer", "Cookies", "Work Sheets", "T.V.", "Toothbrush" "Pajamas" "Book" and "Bed".

Tips For Displaying Picture Symbols

- Changes in a routine may be challenging. Having a symbol for disruption such as one that says "CHANGE" can help students know there is a change in the routine but the schedule they know will continue afterwards.
- Having the most desired part of the routine placed in a special spot on a longer schedule can remind your student of what they are working for.
- Laminated picture cards will stand up against repeated use.
- Using velcro to attach pictures to a display board is the most common display method. They can be rearranged or removed after a task is completed.
- You can lightly tape cards onto holding areas or use clear vinyl display pockets to arrange a sequence of common routines that do not change much.
- It is useful to remove an image or have a cross off/check off aspect in a picture schedule. This can provide a feeling of accomplishment and clarify what is next in the schedule.

A goal for a picture schedule can be to foster independence.

As your student's skills grow, they can become more responsible for their schedule by checking what is next and removing completed tasks. An occasional reminder of "please check your schedule" may be all that is needed to keep your students on task.

Eventually a student may be able to follow a daily routine without direction from others. As a student learns to follow a schedule, anxieties that came from the frustration of not understanding sudden changes in their day can decrease. Schedules can help at home and at school, and the collaborative use in both environments can reinforce the effectiveness of this type of visual strategy.

Don D'Amore M.A. CCC-SLP Has over 20 years of extensive experience working with Augmentative/Alternative Communication (AAC) and with communication strategies for individuals with Autism Spectrum Disorder (ASD). In 2009 he received the "Honors Of The Ohio School Speech Pathology Educational Audiology Coalition".

Please note: this information should not be used as a substitute for the advice of your Speech Language Pathologist, Doctor, or other health care provider. Any recommendations specific to a client is dependent on the many unique aspects regarding the individual, such as age, disability, abilities and other relevant factors. It is recommended that any person with a suspected disability have a complete multi-factored evaluation, and direct consultation with professionals take place before any treatment program is initiated.

MAGNETIC SCHEDULE SETS ▲

These magnetic schedules help you quickly customize visual aids to create a daily schedule, chore lists, classroom schedules, sequence activities, hygiene routines, and more. Each activity icon is magnetic and wipeable for quick clean-up. Magnets measure 2 x 2 inches, are laminated, and dry erase-friendly. The 18" x 12" magnetic board folds down to three 6" x 12" panels, is double sided, and can be used horizontally or vertically depending on your need.

Home: 18" Trifold board, 72 Activity Icons, 21 Headings, and 36 Magnet Stars
 Education: 18" Trifold board, 66 Activity Icons, 21 Headings, and 36 Magnet Stars
 Deluxe: 18" Trifold board, 132 Home, School and Special Needs Activity Icons, 21 Headings, and 36 Magnet Stars

- #411053 HOME \$44.99
- #411054 EDUCATION \$44.99
- #411055 DELUXE..... \$69.99

PICTURE SCHEDULE KIT ▲

Quickly and easily create custom picture schedules! Build understanding, encourage independence, and decrease anxiety in students with autism and communication challenges. Includes 36 2.5" x 3.75" laminated activity cards.

Activities include: art, assembly, bathroom, brush teeth, computer, gym class, library, lunch, field trip, sensory time, and more. **Set includes:** 5 laminated schedule charts to display 4 activities with a blank clock face. Cards can be written on with dry erase marker and erased for reuse again and again. Set includes: 36 activity cards, 5 schedule charts, vinyl storage pages, and sturdy 3-ring storage binder.

#296008 \$89.99

PICTURE THIS ▲

Create photo realistic communication pictures, flashcards, schedules, choice boards, charts and more. The easy to use software can put several photos together in various sizes, with optional text and colored borders. Search function allows you to quickly find pictures. Over 5000 photos covering 38 categories such as: actions, animals, bathroom, body, chores, clothing, colors, emotions, food, health, holidays, household, sequences, time, tools, vehicles, and more. Windows 7, Mac OS X 10.2 & higher.

#282051 \$89.99

RECEPTIVE LANGUAGE COMPREHENSION

Each activity has multiple elements that allow you to adapt it to your students individual needs. For example: one prompt can be “Put a banana on a tree”. A more complicated prompt sequence could be: “Place the small banana on the big tree”. A complex multi-step sequence to follow can be: “Place the big banana on the small vine on the big tree.” Students will enjoy following directions while completing functional themes involving food preparation such as “Put cheese and two pickles on the burger!” Silly and fun themes include interacting with ‘aliens’ on their ‘planet’, an activity for each season, following directions for making cheeseburgers, ice-cream sundaes and more! This set contains over 100 different laminated and velcroed picture cards attached to illustrated pages designed to teach listening and following multiple step directions! ‘Helper’ pages are packed with suggestions and cover a wide-range of prompting ideas! Everything is laminated and three hole punched for easy storage in a 3-ring binder! Bundle 2 contains 96 different laminated and velcroed picture cards attached to illustrated pages. Themes include interacting with fun robots on their planet, kids on a picnic, assembly of a sub sandwich and many more!

- #296013 BUNDLE 1 \$159.99
- #296014 BUNDLE 2 \$155.99

WH QUESTIONS BINDER

Help your students ask and answer open ended questions including: who, what, when, where, why, and how. 90 Interactive hook and loop cards illustrate different Wh-Questions. Lift the card to reveal a matching illustrated answer. This bundle also includes specially designed pages with concentrated sources of illustrated prompts for Wh-Questions, as well as additional pages with a total of 600 written Wh-Question Prompts! All pages are three hole punched for easy storage in a 3-ring binder. Designed and illustrated by Don D’Amore MA CCC-SLP, a Speech Language Pathologist with over 30 years of experience.

#296010 \$145.99

INTRO TO PICTURE COMMUNICATION

The Intro to Picture Communication Set uses laminated and velcroed picture cards attached to illustrated pages to teach the basic concepts of communication using picture cards. It's difficult to teach independent expressive communication to some students.

This set creates motivating activities your students will enjoy with instructions and suggestions. The activities encourage students to use matching picture symbol cards to communicate and participate. Students open 'movable doors' to find what's inside, ask for parts of fun interactive puzzles, and communicate while putting together collections of fun food theme pictures. Everything is heavy-duty laminated and three hole punched for easy storage in a 3-ring binder! Designed by an augmentative communication SLP with over 20 years of experience.

#296012 \$169.99

PICTURE COMMUNICATION STARTER KIT

This set features 400 of the most highly used communication cards to help you quickly start picture communication with your students. Quickly and easily create a communication binder, visual schedules, choice boards, or sentence strips. Use it to support communication around foods, greetings, people, calendar words, transportation, action words, art and school supplies, furniture, toys, body parts, cloths, common wants & needs, and more. Designed by an Augmentative Communication SLP with over 20 years of experience. Each 2" x 2" card features a full color image that is laminated, cut, and ready to use. Each image and symbol is clearly labeled with bold text encouraging literacy and word recognition. Set includes binder, 400 pictures, and 12 vinyl 20 pocket protector sheets.

#296001 \$159.99

CALM CATERPILLAR

Use Calm Corner Kit to create a mini calm spot for your students. Developed by a mindfulness expert, this kit has been used successfully in Cincinnati Public Schools and North College Hill City Schools. The kit includes the Calming Caterpillar Parent Class, a Tree Stump Sitting Cushion, an Expandable Breathing Ball to teach rhythmic breathing, and a Hand-Breathing Poster you can use as a visual guide to lower stress and improve concentration. A Parent Field Guide is also included, to help you apply and demonstrate calming techniques.

The Calming Caterpillar is designed to facilitate three different calming techniques. Stretch it to mirror deep breathing. Drape it around the neck to calm the nervous system. Or count the Caterpillar's ten body segments as a tactile and visual way to focus on counting, using both touch and breath to achieve relaxation and focus.

NEW!

BRAIN BULLIES: STANDING UP TO ANXIETY & WORRY KIT

Brain Bullies is designed to introduce children to the principles of cognitive behavioral therapy. This set includes two games and a storybook to help students recognize anxious thought patterns and challenge these thoughts. This set empowers children to challenge negative thinking patterns, build cognitive resilience, and approach challenging situations with confidence and optimism.

The book features fun and non threatening illustrations of the “Brain Bullies.” As they read, children gain an understanding of the internal dialogue (brain bullies) that fuels anxiety. The book covers the most common distortive thought patterns and teaches children to recognize and challenge these thoughts. By learning to form alternative thoughts, children gain control over their “Brain Bullies,” boosting self-esteem and reducing anxiety. Soft-cover, 40 pages.

Brain Bullies Bingo addresses common cognitive distortions such as Jumping to Conclusions, Blaming Others, Personalization, Not Being Fair, and the Need to Always be Right. 2-16 players, playtime of around 15-30 minutes.

The Brain Bullies Card Game is a powerful tool designed to help children recognize and address common cognitive disorders in their thinking. This game encourages discussions about distortions such as Not Being Fair, Black & White Thinking, Jumping to Conclusions, Blaming Others, Personalization, and Needing to Always Be Right.

Suitable for ages 6+

#540082 \$94.99

WORRY CONTROL GAME

Use the evidence based practices of Cognitive Behavioral Therapy (CBT) to help your students manage stress and anxiety. Evidence based practices include: Education about anxiety treatment by looking at situations that trigger anxious feelings and self talk, relaxation strategies, cognitive restructuring to change unproductive self-talk with realistic thoughts to manage anxious emotions, and identifying times when anxiety was absent to help students repeat what has worked in the past. Rules for both cooperative play and competitive game play. Students will POWER ON for positive self-talk; PAUSE and either act out or describe a relaxation technique; or REWIND and describe a time in the past when they overcame a similar worry or stress. Ages 6-12.

#540075 \$29.99

THE EMPATHY GAME

Teach the importance of empathy, nonverbal social cues, and how to recognize the feelings of others in a fun game atmosphere. Through play students will examine various social situations that will prompt them to take on the perspective of another player, read nonverbal cues, and demonstrate non-verbal cues. Fosters compassion, understanding, and acceptance with lots of lively discussion. 2-4 players. Grades 3-12.

#540044 \$27.99

HOW I LEARNED TO CONTROL MY TEMPER STORYBOOK/WORKBOOK

This workbook/story teaches students the value of controlling their tempers through a variety of stories and activities. The story follows the journey of Michael, a young boy who struggles with controlling his temper. As readers follow Michael's story, they learn valuable lessons about identifying and coping with anger in healthy ways. The second half of the book includes 24 reproducible exercises that help students understand their anger, cope with uncomfortable feelings, build self-regulation skills, and more. Suitable for ages 6-12.

#540077 \$29.99

EVERYBODY GETS ANGRY

Includes 50 lessons to help kids learn to understand, positively express, and cope with angry feelings. Each lesson includes an activity, discussion questions, additional ideas, a reproducible handout, and extension ideas. Activities include drawing, simple art projects, writing prompts, and group exercises using easily accessible common supplies. Wire bound cover makes it easy to photocopy student handouts. Recommended for grades 4-8.

#540074 \$39.99

ESCAPE FROM ANGER ISLAND REVISED EDITION

Teach your students six vital self-regulation skills as they try to escape Anger Island while being pursued by a relentless dinosaur. The game is played in 15-minute segments that focus on mastering one anger management skill at a time, with suggested activities for additional reinforcement practice between sessions. Also includes a reproducible Anger Management Checklist and a Skills Record, allowing players to track their progress and monitor their skill development. A facilitator booklet is included, featuring comprehensive lesson plans, additional activity ideas, and thought-provoking discussion questions. 2-4 players, recommended for ages 6-10

#540081 \$59.99

STOP, RELAX & THINK GAMES & WORKBOOK

The idea of the Stop, Relax & Think system is exactly that. Learning how to stop, relax and think in difficult situations. The goal of this game is to help impulsive children to learn to communicate their emotions, improve their problem solving skills, and slow down and think before they act. Use this system at home, in the classroom, or in therapy settings to teach students to manage stress and anxiety.

#540065	WORKBOOK & CD	\$29.99

STOP, RELAX & RESOLVE CONFLICT GAME

Through play students will learn how to identify and understand different types of conflicts, recognize their own emotions and those of others, and practice effective communication and problem-solving skills. This game covers twelve conflict resolution techniques, helping players build a robust emotional toolbox for any situation. This game covers a range of potential conflicts that students might face, including teasing, sharing, stranger danger, bullying, and saying no to drugs. 2-6 players. Recommended for ages 6 and up.

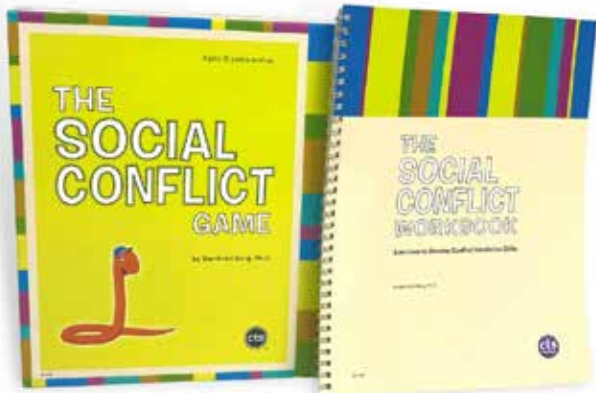

#540076 \$59.99

SOCIAL CONFLICT SET

This educational kit teaches crucial cognitive and behavioral skills for resolving conflicts. Activities are designed to help students practice recognizing conflict sources, assuming personal responsibility, understanding others' perspectives, disputing aggression-justifying beliefs, anticipating consequences, utilizing assertive communication, and exercising problem-solving skills. With each activity, the workbook stimulates critical thinking and self-reflection. The game reinforces understanding of conflict sources, instills personal responsibility, promotes perspective-taking, challenges aggression-justifying beliefs, encourages thoughtful consideration of consequences, models healthy assertive behavior, and cultivates effective problem-solving abilities. Through engaging gameplay, students will practice the tools needed to navigate social conflicts with confidence and maturity. Recommended for ages 8 and up.

#540085 \$86.99

INTERACTIVE SOCIAL & EMOTIONAL BINDER

This SEL set includes 116 interactive hook and loop cards that teach proper responses to common social situations, as well as encourage a better understanding of emotions and feelings! Everything is heavy-duty laminated with hook and loop attachments. All pages are three hole punched for easy storage in the 3-ring binder!

Set includes:

- 6 What Should You Say pages with 8 Lift and Reveal panels per page.
- 3 Sorting Feelings pages with 12 Lift and Reveal panels per page.
- 4 Labeling Feelings pages with 12 Scenarios per page.
- 1 Feeling Label sheet with 30 emotion labels (including duplicates to support working with more than one student or scenario at a time).

#296009 \$169.99

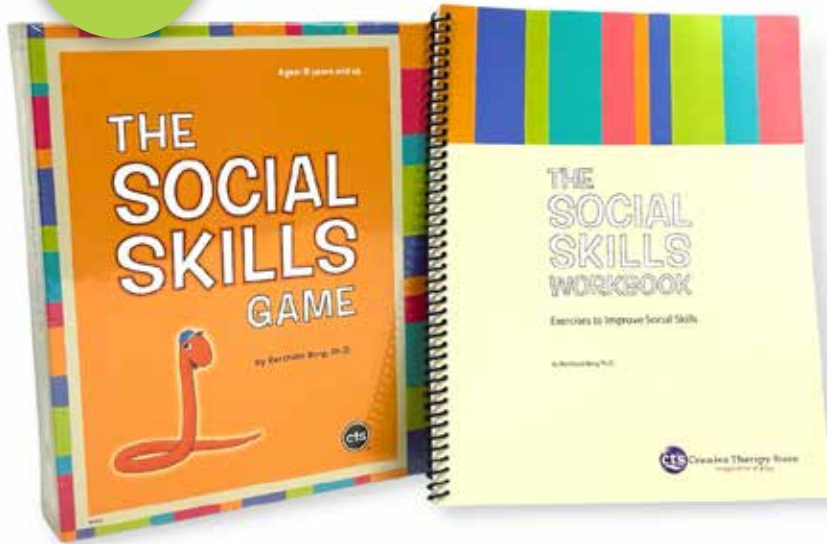

MORNING CIRCLE-TIME BINDER

Easily lead circle time discussions by presenting one theme page at a time to your students. Sturdy laminated pages cover common themes of discussion used in morning routines in preschool and special education rooms. Topics include: weather, temperature, seasons, month, days of the week, who's here today, the schedule of the school day, and more! Some pages have cards velcroed to them for interactive fun, while other pages are specially designed to be used with a dry-erase marker. This is a great way to involve the whole classroom in morning circle time.

#296011 \$89.99

SOCIAL SKILLS WORKBOOK & GAME SET

This easy-to-use resource was developed by Berthold Berg, Ph.D. to reinforce social skills concepts, including an engaging board game and workbook designed to promote positive interaction. The workbook offers practical exercises and uses self-talk techniques to help children learn and reinforce healthy social skills. It guides children in perceiving themselves as competent, anticipating success, reducing worry, accepting mistakes, and taking credit for achievements. The game focuses on four key areas: making friends, responding positively to peers, cooperating, and communicating needs. Gameplay can be easily tailored to meet the specific needs of students. 2-4 players. Recommended for ages 8 and up.

#540084 \$86.99

HIDDEN RULES GAME SET

Play the Hidden Rules games to help your students build their social competence as they discover unwritten social rules. These simple, fun games are played in a similar style to Uno with the added element of talking about and answering social rules questions. This quick activity is great when you have extra time in class, therapy sessions, or during your social skills group. Explore hidden rules in the classroom, community, with friends & more. Ages 6-12. 2-8 players.

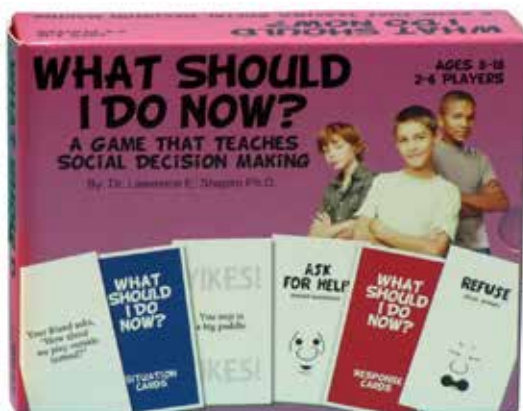

#540021S \$119.99

WHAT SHOULD I DO NOW?

Help your students learn problem solving skills for common difficult social situations. To play, students read scenarios and then they must write down their response to the scenario given. However, all answers must correspond to the type of response determined by the spinner. For instance, if the spinner landed on "selfish" players should try to think of what the most selfish response would be. Ages 8-18. 2-6 players.

#540043 \$27.99

NEW!

THE SOCIAL AND EMOTIONAL COMPETENCE GAME

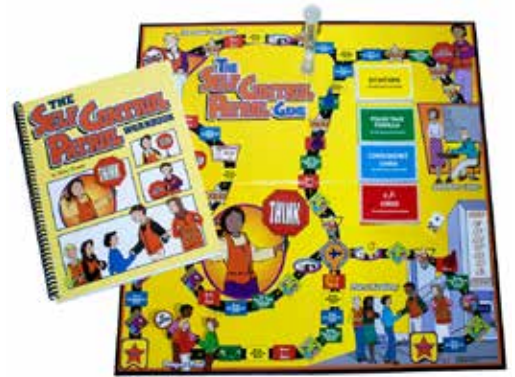

Help students build empathy, communication skills, self-awareness, social awareness, relationship skills, self-management, and responsible decision-making all while having fun. As players move their tokens around the game board they will answer questions posed on the situation cards, earning chips for each correct response. The player with the most chips at the end is the “winner.” Note: this game is difficult for anyone who doesn’t have abstract reasoning skills. 2-6 players. Ages 6-14.

#540071 \$59.95

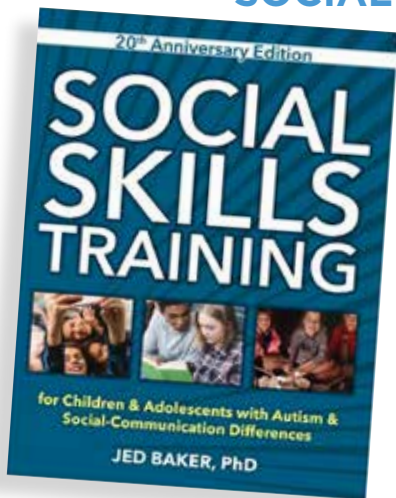

SELF CONTROL PATROL BUNDLE

Use interactive gameplay and engaging activities to foster self-control, positive communication, and emotional awareness. The workbook includes 50 reproducible activities that build skills such as self-discipline, anticipating consequences for behavior, communicating thoughts and feelings effectively, understanding the importance of following rules, and recognizing the impact of their behavior on others. 63 pages. The game creates an immersive experience to practice listening, understanding behavioral consequences, reading social cues, expressing yourself appropriately, defusing conflicts, and more. 2-6 Players, Ages 8-14.

#540088 \$99.99

SOCIAL SKILLS TRAINING 20TH ANNIVERSARY EDITION

This 20th anniversary edition includes more than twenty-five new lessons and updated research. 92 lessons will teach students how to avoid common social problems. A practical curriculum, this book includes step by step instructions and reproducible materials for your program. The simple handouts and activity pages for each skill feature suggestions for practicing the new skill at the home and in the classroom. The book also addresses how to set up social skills training, assessing students, behavior management, generalization, promoting peer acceptance, and more! Lessons Covered Include: Conversational Skills, Cooperative Play Skills, Informal Versus Formal Behavior, Self-Regulation, Empathy, and Positively Asserting Yourself.

#999208 \$39.99

TOPIC TALK

This enjoyable cooperative game creates a fun structured activity that develops a variety of conversation skills including: asking questions, voicing opinions, making comments, listening, and turn taking in conversation. 205 conversation prompt cards will get players to ask and answer questions, make comments, and maintain a conversation for a certain amount of time. Ages 7+

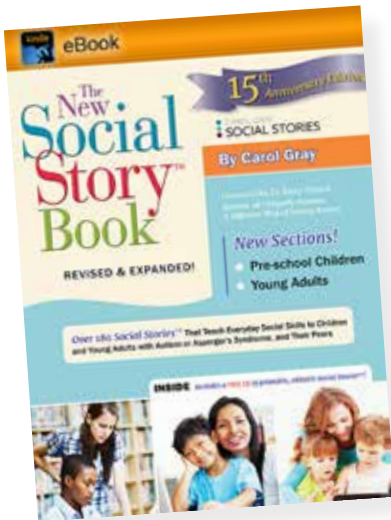

#132119 \$49.99

SOCIAL SKILLS COMICS

These books explore 25 common social scenarios that students face at school. After each comic a worksheet includes questions to help you explore each social scenario more deeply. As students learn the right and wrong way to handle social situations they will grasp the consequences of positive and negative social choices. A great resource for reluctant readers!

WRITING SOCIAL STORIES

Social stories are an evidence based intervention for improving socialization, decreasing frustration, and increasing independence. This book contains over 150 social stories that teach everyday social skills to your students. Stories are written to be for late elementary to middle school students. The beginning of the book will introduce you to the methodology of social stories, how to write them, and how to introduce them to your students. 480 pages.

- #999014 \$34.99

NAVIGATING THE SOCIAL WORLD

Help your students develop a wide variety of social skills and meet your IEP goals. Navigating the Social World's accessible format and easy to use lessons have been used by both parents and educators for several years. Use the reproducible handouts in social skills groups or as home assignments for additional practice. Several forms help you to track progress. 354 pages.

- #999010 \$39.99

COMMUNICATE JR

In this cooperative game, everyone's a winner as players work together to prepare for a pizza party. Flexible design allows you to adjust to individual student needs. Targets 12 social skills: Listening, Hygiene, Voice, Facial Expressions, Manners, Body Language, Ignoring, Conversations, Following Rules, Sharing & Taking Turns, Time & Place, and Eye Contact. Includes simple discussion questions about social situations that players must answer to earn party tokens. Teacher guide includes instructions, modification ideas, and tips for success. Recommended for ages 5-12

- #132132 \$69.99

Managing Overstimulation and Stress

Individuals on the spectrum frequently become overwhelmed or over-stimulated by situations beyond their control. As educators we may not always know the cause of their discomfort so it's important to have a toolbox of calming strategies to help students calm down, refocus, and get back on task. Below are some common calming techniques you can use in the classroom or community.

Create a Calming Area

Create a quiet, easily accessible area your students can go to when they are feeling stressed. This can be as simple as a corner in a room or even a small area rug with calming items behind a teacher's desk. Make sure to practice going there so the student will identify it as a safe place.

Good items for this area include:

Reduce Noise - Use a sound sponge divider to create a clear visual boundary, line the area with felt sound absorbing tiles, and make sure to provide headphones. (pg 37)

Visual Supports - Less is more here. Provide reminders of calming strategies your students have practice while in a calm state. (pg 5)

Calming Deep Pressure - Easy to access weighted items include weighted stuffed animals, lap pads, or a weighted blanket. (pg 23-25)

A Comfortable Place to Sit- Use a beanbag chair, soft carpet, squeeze seat or peapod. (pg 50-51)

Fidget Toys (pg 30)

Discreet Movement Opportunities - Use items like Stretch Bands, the Cozy Cat, the Super Cat, and more. (pg 27)

Provide a Calming Focal Point - This can be as simple as a liquid timer or a rhythmic motion style lamp. (pg 29)

SAMMY THE SLOTH

Sammy the weighted stuffed sloth is a super soft and cuddly friend! This adorable stuffed animal can be great for wiggly legs, sensory and tactile needs. Use him to help with focus and calming. His weight helps give you the comfort your students with autism, ADHD, and sensory challenges need! He provides a much better appeal than a weighted blanket or lap pad, and you can hug him all you want! Weight: 3 lbs. Size: 16" x 6" x 6".

#505102 \$64.99

Remember The Rule of One

Use the rule of one when a student is deeply stressed, anxious or in the middle of a meltdown. **Have only one person talk to the student and ask them to do only one thing.** Unfortunately, most school models of crises call for bringing in lots of people that usually all start talking at once. Rather than calming a situation this can escalate it. Instead, have one person, ideally the person who has the closest relationship with the student, ask the student to do only one thing. The task should be simple- sit in a chair, go to your calm place, or take some deep breaths.

Good Communication

Often stress happens when someone new is working with a student. Remember to communicate across team members and especially with new members. This can be as simple as creating a short "cheat sheet." Make a list of behaviors to watch for: behaviors that indicate stress, successful calming techniques and contact information for the team leader in case a quick consultation is needed.

WEIGHTED HEDGEHOG

This adorable weighted hedgehog provides calming deep pressure for young children with sensory challenges. Your students will love the soft corduroy fabric and tactile yarn nubs on the back of the hedgehog. Measures 12 L x 6 W inches. Approximately 2 pounds.

#505146 \$39.99

MINI WEIGHTED TURTLE

Your younger students with sensory needs, autism, or ADHD will love the Mini Weighted Turtle. Our cute turtle has two pounds of weight that provides just enough deep pressure and proprioceptive input for younger students. Place it on the lap during circle time or while sitting at a desk. Or carry it as a heavy work sensory activity to help kids self regulate. Size: 14" x 11" x 5". Weight: 2 pounds. Recommended for ages 2 and up.

#180501 \$64.99

WEIGHTED WOLF

Our adorable weighted wolf makes the perfect comfort companion. Your kids will love petting its soft fur. It fits perfectly on a lap during circle time or while sitting at a desk. Use it to provide soothing deep pressure to overstimulated or anxious students. Size: 12" x 12" x 12", Recommended for ages three and up. Weight: 2 pounds

#505147 \$49.99

WIPE CLEAN WEIGHTED BLANKET

This weighed blanket **never needs to be washed**. Just clean it with classroom wipes. It's a perfect option to help your students de-escalate problem behavior and manage stress and anxiety. Provides calming deep pressure across the body. The curved neck cutout keeps the blanket from bunching around the neck and face. Use it lying down or sitting in a chair. Pockets evenly distribute weight no matter where you use it.

#410210-1	XS	Wipe Clean	\$199.99
#410210-2	S	Wipe Clean	\$249.99
#410210-3	M	Wipe Clean	\$299.99
#410210-4	L	Wipe Clean	\$359.99
#410210-5	XL	Wipe Clean	\$399.99

WIPE CLEAN WEIGHTED NECK WRAP

The sturdy wipe clean weighted neck wrap provides 3 pounds of deep calming pressure across the shoulders. The sturdy vinyl cover is easily cleaned with wipes or standard classroom cleaners.

#310278 \$29.99

WEIGHTED WRAP

This wrap feels like a big hug when life gets overwhelming. Smaller than the size of a weighted blanket, it provides the deep pressure your students need to help calm their senses quickly and easily. It's easier to put on and take off than a weighted vest, providing quick comfort when needed. Use it in your classroom, sensory room, or calming corner.
Size: 40" x 12" Weight: 5 pounds

#410508 \$59.99

SUPER SOFT WEIGHTED BLANKET

Soothing deep pressure can help kids recover from stress. Features two textures: soft nubs on one side and silky smooth plush on the other. Pockets are sewn throughout the blanket to evenly distribute the weight. Spot wash.
Blue/Green Blanket: 7 pound 56" x 36"
Grey Blanket: 10 pound 65" x 45"

GALAXY GEL WEIGHTED LAP PAD

Shiny stars suspended in a glittery gel provide a tactile and visual sensory experience. 5 pounds of weight calms wiggly legs and helps with focus. Size: 18”L x 10”W - 5 Pounds.

#310265 \$39.99

TEXTURED LAP PAD

This generously sized lap pad lays comfortably across the legs to provide soothing deep pressure to help your students calm down, or focus. A handle allows you to carry it from station to station or from one classroom to another. Size: 19” x 23” x 1” Weight: 5 pounds

#205025 \$39.99

ANIMAL LAP PAD

Soft fur covered lap pads features five pounds of soothing weight that fits perfectly across the lap. Provides deep pressure to help your students with autism, ADHD, or sensory needs focus and relax. Spot wash removable cover. Size: 15” x 14” x 4”

#205024 DOG \$39.99
 #205032 UNICORN \$39.99

WEIGHTED SNAKE

Use our cuddly snake as a weighted neck wrap to help with calming and focusing, or as a lap pad to help restless legs. Covered in soft plush fabric. Weight: 2.5 lbs. Size: 36” x 3.5”

#410507 \$49.99

VIBRATING NECK WRAP

Get ready for a soothing massage with these adorable vibrating neck wraps. Put it around the neck or lay it on a desk or lap for sensory exploration. Just press the button and instantly feel the calming vibrations. Makes a great addition to the calming corner of your classroom. Ages 3+. Size: 16" x 12" x 6"

- #205026-P PUPPY \$29.99
- #205026-U UNICORN \$29.99

PUPPY WRAP

2.5 pounds of weight quickly and easily provides calming pressure across the shoulders. The sensory sensitive kids will love the velvety soft corduroy against their neck. Easily take on/off in crisis situations. Sturdy construction. Machine washable.

#410005 \$59.99

SIRIUS VIBRATING MESSAGE PILLOW

This pillow provides relaxing and calming vibrations as soon as you squeeze it. It features a soft, durable corduroy cover and is foam filled. Gentle vibrations encourage relaxation and work well to calm an over stimulated person. Requires two "D" batteries (not included). Size: 12" x 12"

#390237 \$45.99

B-CALM HEADPHONES

Use audio earphones to help students block out distracting noises so that they can focus in the classroom and avoid overstimulation. These comfortable headphones come with audio engineered "acoustic shield" tracks that act as white noise, making typically distracting noises unnoticeable so that your student can concentrate. Soothing nature tracks help calm agitated students. Set includes headphones, earbuds, "acoustic shield" soundtracks, carrying bag, and an MP3 player.

#955001 \$138.99

SUPER CAT

Heavy duty 4 way stretch Lycra fits loosely and allows students to push with their arms and/or legs to increase compression and deep pressure. This self-directed sensory-rich activity often results in improved calm and focus. The hood is specially designed to keep the face clear of fabric and a wide opening at the top allows the arms to easily move in or out. You have the choice to keep the bottom open or tie it using the curved contour. Tying the bottom adds resistance for feet to push against.

#410213	XS	\$49.99
#410214	S	\$51.99
#410215	M	\$55.99
#410216	L	\$59.99
#410217	XL	\$64.99

STRETCH BAND

This lycra resistance band is ideal for developing gross motor muscles, providing proprioceptive input, and building body awareness. Your students can use it as a heavy work activity that provides just the right amount of calming deep pressure. Place it in your calming area or use it as a quick movement break to help with focus. Recommended ages 5-12.

#410509 \$19.99

1 2 3 4 RELAX

This kit will help your students to systematically tense and relax the muscles in their body to release tension and lower anxiety and frustration. This simple relaxation technique can be used discreetly in a wide variety of everyday situations. Set includes: 8.5" x 11", 3 stress balls, 3 visual cue cards 3" x 3", and instructions.

#100230K \$19.99

COZY CATERPILLAR

The Cozy Caterpillar is like a giant compression sock, providing deep pressure from the shoulders to the feet. Expertly designed to help those who struggle with anger or anxiety, need proprioceptive input, or have focus challenges. The convenient, easy to use design opens on both sides and can roll up like a sash, making it instantly available when your students need it. Features triple stitched heavy duty spandex, making it highly durable. Great for all ages!

#410126	XS	\$52.99
#410127	S	\$52.99
#410128	M	\$52.99

LIGHT UP STAR SPINNER

#505096 \$7.99

LUNAR LIGHT SHOW

Place this item in any room to create a calming visual focal point to help students re-center and relax. Slowly rotating colors provide a focal point to soothe overstimulated students. A remote allows you to change colors and patterns. Size: 5" x 5" x 5"

#112659 \$24.99

LIQUID TIMER

Your students will instantly become visually engaged with the Liquid Timer as two rows of soft circles sink down to the bottom. This calming visual item is great as a reward toy or can be used in your calming area. Size: 6" x 2" .75"

#500247 \$6.99

OOZE TUBE

Watch the liquid slowly flow down the Ooze Tube to calm and relax. Sure to be a classroom favorite. Size: 5" x 3" x 3"

#501348 \$9.99

SAND PANEL

Just flip over the sand panel on its hinged base and enjoy watching the sand flow down. Sturdy acrylic panel and steel frame. Size: 5.5" x 8" x 1.5"

#240236 \$24.99

DELUXE JELLYFISH LAMP

Use our jellyfish lamp to create a calming visual focal point to help your students relax. Visualization is a popular relaxation technique that involves using your imagination to help reduce feelings of nervousness. By using visualization, students can lower flight-or-fight responses that are often triggered during times of increased anxiety. Unfortunately, for many younger students and those on the autism spectrum the abstract concept of visualization can be hard to teach. Using a calming focal point to focus on provides a concrete way for students to view something relaxing to help move out of the fight or flight response.

The amazing Deluxe Jellyfish Aquarium Tower will bring the look of a beautiful saltwater aquarium to your home, school or office without the responsibility of feeding or cleaning. No maintenance required! This soothing aquarium switches from five different LED colors: red, yellow, green, blue and pink. Set includes and a low voltage AC adapter. To set up, place the included jellyfish inside the aquarium, add water and a few drops of dish soap, plug in the lamp, and enjoy.

The tower design mimics larger bubble tubes at a fraction of the cost. Turn on the lamp and watch two large jellyfish glide as ambient lights slowly change colors. This lamp features 18 LED lights. An auto-off function will turn off your lamp after four hours.

Size: 18" x 5.5" x 5.5"

Note: this electrical product and must be used with adult supervision. It is recommended for ages 15 and up.

#258004 \$109.99

“My son loves watching the jellyfish “swim” around. Everyone in the family is really enjoying this lamp. Very relaxing and soothing. We are all getting mesmerized by them. My daughter even named the jellyfish.”

WIGGLE WOBBLE CHAIR FEET

Turn any chair into a kinetic wiggly seat with Wiggle Wobble Chair Feet! Increase focus by allowing individuals to wiggle, bounce, and rock back and forth as they work, providing a helpful energy outlet that's perfect for those with trouble sitting still. This is a quiet fidget, making it a great fit for classrooms and offices. Build balance, core strength, concentration, and more. Installation is easy and requires no tools-- just snap them on the bottom of chair legs and get ready to wiggle!

Unlike hand fidgets, the Wiggle Wobble Chair Feet engage the core muscles-- some of the largest muscles in the whole body. This is perfect for giving students an energy outlet as well as providing a focus-building activity. After use, simply snap the feet off and they can easily be moved to another workspace. Use them anywhere you need a focus boost!

#205008 \$24.99

BOUNCY BANDS

Have an active student? Attach Bouncy Bands to the student's chair or desk to give them a discrete movement solution in class. Great for providing an outlet for over-active, frustrated, or anxious kids, the heavy duty band won't break as your students kick and push against it with their feet. Discreet, effective, and non-intrusive to other students.

#100220-S	SET	\$14.99

TIME TRACKER MINI

This timer stays green, then turns yellow to warn time will soon be up, and finally red as it counts down the time. This progression allows highly visual students to understand how much time is remaining with just a glance. Use it on a student's desk or to help kids stay on task at a center. Size: 6.1" x 4.1" x 4.1"

#590002 \$28.99

DESKTOP COUNTDOWN TIMER

As time goes down the red disc disappears. When time is up, your student hears an alarm. Set it quickly by just turning the dial on the front of the clock. 60 minute timer. Size: 3" x 3" x 2.25"

#320010 \$24.99

SMARTTIME TIMER

This 4" x 3" timer features large, easy to read numbers. Set the timer with a press of a button in increments of 10 minutes, 5 minutes, 1 minute, and 10 seconds. When time is up, the alarm will beep and flash. Beeping sound is optional. Includes a built in stand, hooks, and magnets allowing you to mount it to a wall, hang it on your magnetic white board, or stand it up on your student's desk. Size: 4" x 3" x 4"

(C) MIRROR BALL BUNDLE 

Watch hundreds of lights dance across your walls with the Mirror Ball Bundle! To use, shine the pinspot light on the Mirror Ball and watch as the light scatters across your space! The rotator can be mounted flush with the ceiling, or on a hanging hook. Easily select a different color with the press of a button, or pick from more than a dozen automatic color changing modes. Includes mirror ball, rotator (battery operated), and Pinspot light that plugs into a standard 110v outlet.

#987045 **\$169.99**

(D) FIBER OPTIC CARPET W/ LIGHT SOURCE 

This multi-sensory fiber optic carpet features tiny fiber optic lights that create a pattern of stars throughout the black carpet. The stars slowly change colors and are calming and soothing to watch. It's perfectly safe to lay on the carpet, creating an accessible multi-sensory experience that can help de-escalate problem behavior. The light source plugs into a standard 110 volt outlet and must be kept out of reach for safety. Size: 40 x 79 x 2 inches

#987019-C **STANDARD** **\$1,999.99**
 #987019-S **INTERACTIVE** **\$2,399.99**

(E) AURORA LED PROJECTOR 

Dramatically change the look and theme of your sensory room with the Aurora LED Projector. This projector casts vibrant images that can rotate on the walls, ceiling, or floor, allowing you to easily transform the look and feel of your sensory room. Keep students interested with the variety of effect wheels. This set includes: Aurora LED Projector, Wheel Rotator, and 5 Effect Wheels.

#987007 **\$1,399.99**

(A) FIBER OPTIC SOFTIE 

Sensory seekers, anxious, over-stimulated, or restless students will enjoy interacting with this multi-sensory bean bag cushion. Soft vinyl fabric, glowing lights and interactive fiber optic strands provide abundant amounts of calming sensory input. Your students will love sinking into the beanbag and interacting with the fiber optic strands. The strands conduct light but never heat up, making them safe to hold or drape across your students. Compatible with a standard outlet. Set includes beanbag, 100 fiber optic strands, and light source. Size: 53" D x 18" H.

#987008-C **\$2,199.99**
 #987008-S **\$2,399.99**
 #987008-I **\$2,549.00**

(B) BUBBLE TUBE PLATFORM 

Soft vinyl surface for students to relax on while watching the bubbles rise and shimmer. Phthalate-free vinyl is easy to clean and sanitize. Hole accommodates any 6" diameter bubble tube.

#987001	CURVED-MEDIUM	36" W X 36" L X 16" H	\$999.99
#987001-L	CURVED-LARGE	48" W X 48" L X 16" H	\$1,199.99
#987002-M	SQUARE-MEDIUM	36" W X 36" L X 16" H	\$899.99
#987002	SQUARE-LARGE	48" W X 48" L X 16" H	\$1,199.99

BUBBLE TUBE CORNER

Easily create a calming and visually engaging focal point for your sensory room with this Bubble Tube Corner kit. Anxious, over-stimulated, students will begin to relax as they watch air bubbles shimmer and flicker, reflecting the soft glowing LED lights. Students will love sitting on the soft, comfy, padded platform as they interact with the bubble tube. Mirrors create the illusion that there are multiple tubes in the room. This rewarding activity is something your students will look forward to seeing again and again. Each sturdy six inch wide tube is made of shatter resistant acrylic and features a low maintenance LED light source. You never have to worry about changing any light bulbs. Choose from the Calming version that automatically slowly changes colors or the Superactive version that allows you to control the colors by using an interactive controller.

This set includes:

- 1 60" Bubble Tube
- 2 48" H x 36" W Mirrors
- 1 Bubble Tube Platform: 16" H x 36" W 2 38" L
- 1 Bubble Tube Bracket
- 1 Bottle of BCB and Bubble Tube pump for easy maintenance

#987020-1	CALMING	\$3,799.99
#987020-2	SUPERACTIVE	\$4,499.99

SENSORY COCOON

Your students will love climbing into the sensory cocoon. Watch bubbles flow up the bubble tubes as the fiber optic strands provide a twinkly light. Acrylic mirrors at the top LED curtain create the illusion that the lines of light continue onto the ceiling. Fiber optic strands do not conduct electricity, so they are completely safe to touch and explore. Choose from the Calming option that slowly changes colors or the Superactive version that comes with a controller that allows you to change colors. Plugs into a standard 110v outlet. Requires 8' clearance. Platform and fiber optics create a 48" in diameter footprint from the corner of the room. Set includes: Bubble Tube, Platform, Fiber Optic Lights, 1 Pair of Acrylic Mirrors, Bubble Tube Bracket, hose, pump, and treatment fluid for controlling algae and bacteria. Size: 48" in diameter

#987018-1	CALMING	\$6,299.99
#987018-2	SUPERACTIVE	\$7,799.99
#987018-3	IRIS	\$8,499.99

CASCADE FIBER OPTIC WALL

Creates a beautiful curtain of illuminated fiber optic strands to watch and manipulate. Perfect for helping individuals calm down and relax, each fiber optic strand has no electricity running through it, making the strands completely safe to touch and explore. Easily accessible for wheelchair users with a swiveling, wall-mounted bracket. Mount on a wall or doorway for a beautiful curtain of light perfect for sensory rooms and other calming spaces!

#941101	39" W X 78" L	\$1,349.00
#941102	47" W X 78" L	\$1,429.99

BEST SELLER!

MOBILE SENSORY CART

Transform any room into a relaxing, sensory room within minutes. Sturdy cart features heavy duty locking casters that make it easy to move and lock into place when you are ready to use it. Students will enjoy sitting on the padded platform as they explore the bubble tube, star carpet, and fiber optic strands. No electricity runs through the fiber optics, only lights so they are safe to touch and interact with. Plugs into a standard 110 volt outlet. Choose from the Calming option that slowly rotates colors or the Superactive option that includes a controller that allows you to change the colors. Size: 28" H x 48" W x 48" D

Includes: 40" bubble tube, 2 Acrylic Mirrors, 150 fiber optic strands, fiber optic carpet panel.

#987021	CALMING	\$7,499.99
#987070	SUPERACTIVE	\$8,799.99

FIBER OPTIC SPRAY

Our sprays are perfect for laying across the floor, a soft mat, or bean bag for soothing visual stimulation and tactile exploration. There is no electricity that passes through the fibers - just light. Unlike cheaper fiber optics that use a glass fiber core, this one uses Plastic Optical Fiber (PMMA) that is certified and has a UL listed certification. A remote control allows for color choice and color-cycling effects.

INTERACTIVE SOUND PANEL 

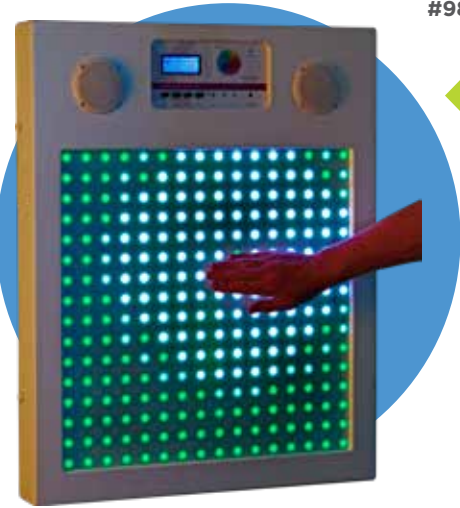

This item will make a great addition to your sensory room. As your students make sounds they will get immediate positive feedback through the visual display panel. Great for encouraging your students to vocalize. Use it to teach communication, cause and effect, color and shape recognition, develop fine motor, hand eye coordination, tracking skills and more. Whenever you make a sound you get a response - talk, clap your hands, play an instrument, or blow a whistle. Several different modes provide lots of interactive fun and keep your students engaged. Size: 37" x 31" x 13"

#987025 **\$3,999.99**

 **LED INFINITY TUNNEL** 

A series of LED lights and mirrors creates the illusion of a tunnel of lights that stretches into infinity! Provides a calming distraction for anxious or distressed students. Latest LED technology produces vibrant colors that never fade with bulbs will never burn out making it almost maintenance free! Plugs into a standard 110v outlet. Two options to choose from- calming: slowly changes through a rainbow of colors or Superactive that includes a wireless controller with 8 buttons. Clients can control up to 8 colors. Size: 20½ W x 23" H x 4½ D.

#987034-C **CALMING** **\$2,299.99**
 #987034-S **SUPERACTIVE** **\$2,549.99**

MUSICAL TOUCH WALL 

Provides compelling visual and auditory feedback to simple touch input, providing calming stimulation that users will enjoy. Use it to teach cause and effect, motion tracking, color recognition, shapes, motor skills, hand eye coordination, and more. Soft LEDs light up, pulse and change color when touched. This product is designed to last for years. No need for bulb replacements, making it virtually maintenance free. Easily change light colors, speed of the effects, how long the effects last before they fade, and volume. Choose between a wide variety of interactive modes featuring shapes, numbers, finger trailing, ripples, splats, and snakes. Size: 37" x 31" x 13"

#987009 **\$4,299.99**

 **BUBBLE MIRRORS**

SOUND SPONGE DIVIDERS

Use these dividers to easily create quiet, small spaces in your therapy center or classroom. The spongy, thick construction is great for creating sound absorbing individual work spaces or to make a separate area for individuals to relax, calm down, or self-regulate. The lightweight design of these dividers make them portable, easy to reconfigure, and compact. Just roll them up for storage. Two low-profile support feet provide stability. Optional support feet and magnetic strip allows you to attach your dividers to a wall for extra support. Comes in Blueberry, Slate Blue, or Natural Tan. Shipping charges apply.

UDINE HAMMOCK CHAIR

The Udine Hammock Chair is a comfortable, sturdy, and easily portable solution to provide gentle rocking and calming vestibular stimulation. The hammock offers versatile relaxation with its wide reclining area, accommodating both sitting and lying positions.

Choose from two options: soft cotton and sturdy, easy-care polypropylene fiber. The wooden stand is made from FSC™-certified sustainable eucalyptus.

Thanks to its compact dimensions, it takes up little floor space, making it perfect for a wide variety of environments. Effective, comfortable, and durable enough to last for years, The Udine Hammock Chair is a great choice for use in the home, classroom, or clinic.

Please note: the Udine chair is designed for gentle rocking. If your client is prone to intense rocking or desires intense vestibular input we do not recommend this chair.

Store in a dry place when not in use. Requires approximately 3.8' x 3.8' floor space with a height of 2.1'. Ensure at least 2.6' clearance from surroundings.

Max weight: 285 lbs.

◀ ROMANO STAND & CHAIR

Your students will love this super soft hammock chair that’s so comfortable to snuggle in. Use it to provide a calming swaddling effect as a de-escalation strategy, or as a safe calm down spot in your classroom. Students can gently rock themselves to help with focus and concentration. This is a great option for facilities that don’t have space for a swing. The hammock design provides mild vestibular input and is a great alternative when a swing is not available. The chair hangs from an incredibly stable steel frame with a load bearing weight of 353 pounds. Its 5’ x 5’ footprint makes it perfect for your sensory room or calming area. Set includes steel swing chair frame, chair, and suspension rope. Size: 7’ 5” x 5’ 3”.

#331211 \$599.99

SQUEEZE SEAT ▶

Innovative design gives students a calming deep pressure “hug” to help their systems organize. Covered in durable vinyl with reinforced stitching. The bottom of the chair has a small flat section that provides stability. Max Weight: 150 pounds Size: 29” x 13” x 25” Ages: 2-12 years.

#205037 \$299.99

◀ HUGGING PEAPOD

Easily provide your students the deep pressure they need to help them calm down, focus, and pay attention. This comfy canoe makes a great calm down spot for your classroom, or reading “chair” to assist with focus and concentration. Use it with a clipboard as a homework spot. The strong vinyl construction and triple-welded seams ensures that this therapy resource is built to last. The velvety surface is made with comfortable flopped vinyl. Surface-washable. Latex free. Includes pump for easy inflation.

Set includes: 12 Half Bricks, 8 Bricks, 4 Hoops (14 inches), 4 Hoops (24 inches), 16 Poles (14 inches), 8 Poles (28 inches), 24 Clips, 10 Bean Bags, 4 piece Balance Beam, 6 pairs of Hand prints, 6 pairs of Footprints and 1 carrying bag. Ages: 3-10

#361055 \$995.99

FLOOR SURFER

Unique tapered design provides a wide range of movement opportunities for your student's arms. Wheels are set far enough underneath the board so that students won't roll over their fingers. A semi padded top is comfortable to lay on. 23 x 15 x 5 inch board provides lots of room for sitting, scooting, or laying down. Max load: 220 pounds. Ages 3+

#950005 \$147.99

ROTATOR

Unique tapered design provides a wide range of movement opportunities for your student's arms. Wheels are set far enough underneath the board so that students won't roll over their fingers. A semi padded top is comfortable to lay on. 23 x 15 x 5 inch board provides lots of room for sitting, scooting, or laying down. Max load: 220 pounds. Ages 3+

#950037 \$132.99

WHIZZY DIZZY

Want to provide some vestibular and gross motor fun for your students? Check out the durable Whizzy Dizzy! Your students will have fun spinning as they twist themselves around and around while getting lots of sensory input. Use as a good heavy work activity or rewarding break for a job well done. Larger than most spinners, this spin toy features steel ball bearings, a steel steering column and heavy duty impact-resistant plastic. The rubber feet will keep it from sliding, or scratching your gym floors. Max load: 99 pounds. Size: 22" x 22" x 12"

#940054 \$199.99

ROCKING BOWL

Safely and easily provide vestibular input for your students with these sturdy Rocking Bowls. The curved edge of the bowl provides natural points for your students to hold onto without the worry of smashing fingers for extra security and support. Textured ripples along the bottom of the bowl provide tactile input and keep kids from slipping as they spin and rock. Size: 30 x 30 x 22 inches. Max load: 120 pounds

#T050 \$264.99

WHALLY BOARD

Use this ocean themed rocker to provide lots of vestibular input as students sit, stand, hold, and rock on it. Tactile wave and bubble patterns on the surface provide traction and slip resistance. Grooved edge on the back of the board prevents pinched fingers for worry-free playtime experience. Size: 24.41" x 15.55" x 6.69" Max load: 130 pounds. Ages 2 and up

#950035 \$139.99

ROCK AND TWIST

Helps students build core strength, balance, posture, and coordination. Provides vestibular input and calming rocking for those who need to rock and spin. Foam covered handles provide extra stability. Size: 22" x 18" x 8" Maximum load: 300 lbs.

#205035 \$89.99

ROTATION BOARD WITH HANDLES

An anti-skid surface allows students to stand or sit with confidence. Use it to provide vestibular input as your students rock side to side or spin. Four padded handles and a 28" x 28" surface allows two students to sit and play at a time. Two base mounts (1.2" and 1.6") allow you to increase the angle of the board as skills increase. Max load: 125 pounds. Size: 28 x 28 x 6 inches. Ages 3+

#950018 \$199.99

BALANCE HIMALAYAS

This nature inspired balance beam set has a multi slope balance path and anti-slip sensory surfaces that resemble mountains, clouds and flowing rivers. Varying degrees of difficulty will challenge a range of ages and abilities. Six pieces can be configured in a variety of ways. The pieces stack and nest together, making storage easy. Size: 33”L x 13”W x 7”H. Max load: 176 lb. Ages 3+

#950029 \$405.99

NESTING BALANCE PATH

This set easily nests together for space saving storage and includes four different widths and heights that allow students to feel their center of gravity and develop balance skills. Strengthen single-leg muscles, stability, and motor planning skills. Non-slip tactile animal footprints cover the paths and provide sensory stimulation. Set includes 6 pieces that can be arranged into a variety of configurations. Pieces range from 26”-45” in length. Maximum load: 132 lbs. Ages 2+

#950033 \$355.99

JUNGLE TRAIL

This innovative set features 6 logs (23”L x 5.4”W x 3.6” H) that have different sides to walk on- one side is flat and the other is convex. You can give your students very different challenges when using both sides in one path. Tactile patterns provide sensory input and create a non-slip surface for your students’ feet. Place logs above or below the bases to create a wide variety of configurations and activities. Ages 2+ Max load: 132 lbs.

#361054 \$309.99

FIGURE EIGHT BALANCE BEAM

26 interlocking pieces let you build lots of activities to help develop balance, motor planning, body awareness, and more. Connect all or some of the pieces, and build a figure eight, a circle, a wavy path, or a straight line for students to walk across. The various configurations allow students to experiment and challenge themselves. Assembled Size: 118” L x 51” W x 6.25” H

#251006 \$299.99

BALANCE ROCKING ICE

Three sizes of irregular shaped stepping ice cubes create a fun, engaging way to improve balance, coordination, motor planning, spatial awareness, and more! The bottoms of the large and medium “ice cubes” are slightly irregular, providing some instability. This activity challenges kids’ spatial awareness, while building balance, motor planning, and decision-making skills. Slip-resistant bottoms and tops are molded into the plastic so it will not peel off or come apart over time. Set includes six pieces. Max Load: 132 lbs. Ages 3+

#950031 \$229.99

PLAN YOUR STEP

Great for toe walkers! This set allows you to create a variety of gross motor challenges all while stretching calf muscles. Each concave piece has both narrow and wide sides, creating an irregular surface that challenges coordination and balance.

Fit pieces together or space them apart to create gaps. Anti-slip grips and bottoms. Stackable for space-saving storage. Set of 6 20” x 15.5” x 6.7” Max load: 132 lbs. Ages 2+

#950032 \$319.99

RAINBOW RIVER STONES

An OT favorite! Each colored stone has a different height. By stacking the stones on top of each other (up to 3 high – one red, one green, and one yellow) in different configurations the top of the stone can be level or have more of a slant. Anti-slip surfaces on the top and bottom are molded through the product and will not come apart with use. Stacked inside each other for easy storage. Max load: 176 pounds. Ages 3+

#361053 \$259.99

RAINBOW STEPPING STONES

Build gross motor skills including motor planning, balance, and more with the colorful rainbow stepping stones set. You can use this extremely durable set in your gym or outside. Flip them over to provide an increased balance challenge. This set includes six 6.5 x 3.5 balance pods in blue, purple, green, yellow, orange, and red.

#200258 \$69.99

SENSORY SOFT ROCKER

Your students will love our new soft rocker. It's covered with easy to clean vinyl and features a soft foam core. Use it in your calm down area to provide calming rocking or your sensory room for vestibular input. Please use it with adult supervision. Size: 21" x 21" x 27". Max load: 250 lbs. Recommended for ages three and up.

#205038 \$429.99

SENSORY ROCKER

Inflatable rocker is perfect for calming, reading, vestibular input, or to build core muscles. Features triple welded seams, heavy-duty thick vinyl, and a free repair kit. Easily inflate or deflate the rocker with the enclosed foot pump. Max load: 300 lbs. Size: 56" x 43" x 25"

#200258 \$109.99

GEL TILES

Your students will love walking on or pushing on these gel tiles and watching the colors move. Gel Tiles work well in sensory rooms, homes, classrooms, and clinics. Place four tiles together to create a calming corner. Use them to encourage sensory seeking students to jump and stomp the tiles or sit and push the water inside to watch the colors move. Safely use them on your carpet or tile. An anti-slip bottom keeps them from sliding. Size: 20" x 20" x 3".

DRESSING FRAMES

Use these sturdy dressing boards to teach independence skills to students such as tying your shoes, snapping, zipping a zipper, or pulling buttons through shirt holes. The flat design allows you to place it across a student's chest for optimal practice.

#820003 \$64.99

MAGNETIC MAZE BOARD

Builds essential fine motor skills as students use the magnetic wands to move the red and green balls through the maze. Magnetic balls are securely enclosed behind the acrylic cover and magnetic wands are securely fastened to the base. Size: 12" x 12" x 1" Ages 3+

#820006 \$42.99

SILISHAPES SENSORY CIRCLES

Each silicone disc features a distinct color and pattern to explore. Pull a small disc out of the bag and ask kids to find its match, line up the large circles into a tactile trail to walk on, ask kids to identify the discs by color and pattern, and more! Set includes 5 large circles (13.7") and 5 small circles (3.1"). Ages 5+.

#940063 \$67.99

POP UP SENSORY DEN

Create a sensory space quickly and easily with our pop up den. Includes black walls that work well with light-up toys and sensory items. A small window allows you to close the door but still monitor your students. Easy to set up and disassemble and does not require poles, pegs, or ties! Size: 59" x 59" x 46"

#205036 \$149.99

SENSORY BRUSH

This low cost brush is perfect for introducing brushing therapy. Use them to help acclimate children who are sensitive to touch. These brushes make an ideal alerting activity to prepare students with special needs for learning. They are great for those who enjoy brushing and deep pressure touch.

#370400-6 SET OF 6 \$12.99

WILBARGER THERAPY BRUSH

Designed by Patricia Wilbarger for brushing therapy. The high density bristles provide optimal tactile input. The handle's ergonomic design makes this brush easy to hold and use. According to Patricia Wilbarger, "the high density of the bristles make it an ideal brush for the body." For specific instructions on brushing therapy it's best to speak with an occupational therapist or therapist trained in the Wilbarger Protocol. Size: 3.5"x 3.2"x 2".

Interactive Reading Books Help You Use Visual Strategies to Promote Literacy

Anyone who has vision can benefit from visual strategies, especially visual learners. Students on the Autism spectrum are especially prone to be visual learners and benefit from the use of pictures when attempting to access and convey information.

Using visual strategies to promote literacy:

Interactive Reading Books were designed to build literacy while also meeting common IEP goals around a variety of academic subjects.

Each book includes full color picture cards you can use for matching, picture identification, and labeling activities. Use them to build vocabulary, comprehension, fluency, memorization and retention skills.

The IEP goals incorporated in each book were developed based on interviews with Speech and Language Pathologists across the US. Each book is laminated for years of use in the classroom or clinic and includes a set of Velcro-backed, full color picture cards. Designed for students ages 3-10 of varying abilities and reading levels.

- Capitalizes on visual learning styles that are especially helpful to students with developmental delays and those on the Autism spectrum.
- Based on IEP goals currently used in educational programs across the United States.
- Offer seven levels of activities that allow for a range of ages and abilities.
- Are developmentally based and developmentally appropriate.
- Allows children to work at their own rate.
- Support ESL learners by providing visual information for unfamiliar words.
- Are in compliance with and have met educational standards requirements with the California Department of Education.

By Joan Green a winner of the LAUSD Teacher of the Year awards, and a member of the National Autism Resources advisory board.

“We are so thrilled with your Interactive Reading Books! I have a pediatric practice and my clinicians are finding these books to be invaluable for children with emerging language skills. They are easy to use, require no preparation and are highly motivating. Thank-you!”
- Patti Hamaguchi- M.A.,CCC-SLP

Evidence Based Tools that Support Learning

Visual Supports

Incentive Charts or Token Boards to support positive behavior by keeping students motivated and creating clear goals. (see pg 39)

Visual Schedules, First/Then First/Then/Next, To Do/Done Charts (To learn more see pg 4)

Cue Cards to convey a behavioral expectation or facilitate communication. (See pg 4)

Sensory Tools

Fidgets and active sitting options allow students to move at their desk without distracting others to supporting on task behavior. (see pg 30-35)

Weighted items: stuffed animals, lap pads, and neck wraps provide calming deep pressure to help manage anxiety, frustration. (see pg 23-25)

Noise canceling headphones help students focus and maintain a calm state when there is a lot of sensory stimulation. (see pg 37)

Adapting Classroom Spaces

A calm **visual focal point** supports mindfulness and relaxation exercises and can help students manage emotions and prevent escalation. (see pg 29)

Sound dampening equipment can keep the noise level down in classrooms and calming areas. (see pg 49)

Create a **calming area** in the classroom where students can go for breaks throughout the day. (See pg 22)
